Dear Colleague,

Acknowledging the University of Manchester and the Manchester Academic Health Science Centre in all publications

The Board of Governors of the Manchester Academic Health Science Centre (MAHSC) have agreed policy on the attribution of addresses used in publications. Thus, members will use their best endeavours to ensure that, where the relevant employee has a substantive or honorary contract with The University of Manchester, The University of Manchester will be the primary name and address cited in all papers, articles and other publications published in connection with any clinical and/or translational research activities undertaken by any employees of any partners. All publications should also use Manchester Academic Health Science Centre in the name. An appropriate address is critical to ensure that our achievements and impact are identified without ambiguity: the disbursement of funds and our position in various rankings are increasingly influenced by measurements of citations.

Therefore, the name and address in any such publication should be presented in the following way.

The University of Manchester, Manchester Academic Health Science Centre, {Trust name}, Street address.

It is also important to be attentive to the correct and comprehensive attribution of funding sources in the acknowledgement sections of your publications. Journal practices vary, but it is recommended that you include acknowledgement of all the relevant and appropriate infrastructure funding that we receive from (for example) the *NIHR Biomedical Research Centre, NIHR Translational Clinical Research Facility, NIHR Collaboration for Leadership in Applied Health Research and Care, the Comprehensive Local Research Network, Cancer Research UK, the Medical Research Council, and the Wellcome Trust.*

If you are unsure how to include this acknowledgement statement within your publication, please contact your Trust R&D Office/Divisional Research Manager or your University Research Business Manager.

Yours sincerely,

Director of the Manchester Academic Health Science Centre
